WORK EXPERIENCE

Data Analyst, Vectra AI
Jun 2019 - Present
- Built and maintained Periscope dashboards using SQL, R, and Python.
- Tracked KPIs for internal business use.
- Simplified analytics with Periscope snippets and SQL views.
- Used HTML/JS to create buttons, automatic filtering, and dropdown menus within dashboards.
- Managed ETL flows with Stitch and Redshift.
- Used R and Power BI to develop the statistics in two reports: Ransomware Spotlight and 2019 Attacker Behavior Industry Report.
- Wrote a data blog on the malicious usage of RDP.

Innovation Intern, Good Food Institute
Jun 2018 - Jan 2019
- Developed a contact info database for top U.S. university professors who are involved in fields relevant to lab-grown meat.
- Managed GFI social media communities on Facebook and Slack.

Student Assistant III, Santa Clara University Library
Feb 2017 - Oct 2019
- Used Photoshop to digitize the academic works of SCU's professors.
- Used Excel to collect and organize publication metadata.
- Created webpages in the Scholar Commons, an open-access online database of academic publications.

Intern, Chavez & Gertler LLP
Apr - Jun 2016
- Used Excel to digitally book the case files of every active lawsuit.
- Analyzed thousands of text messages in order to find evidence of important events for an active case.

EDUCATION

Santa Clara University
Sep 2016 - Mar 2020
- B.S.C in Management Information Systems, *cum laude*.
- Awarded Dean's Scholarship and Incentive Grants for full tuition.
- Relevant coursework: Data Science with Python, Prescriptive Analytics, Database Management Systems, Programming (C, Java, Bash), Economics, Finance, Accounting, Operations, Marketing, Management, Business Law.

Study Abroad: University of Auckland
Jul - Dec 2018
- Lived, studied, and travelled in New Zealand for half a year.
